

# Traceable Pyrography Patterns

Snowflakes & geometric designs. Original, free from Fire Needle.

## How to use these patterns

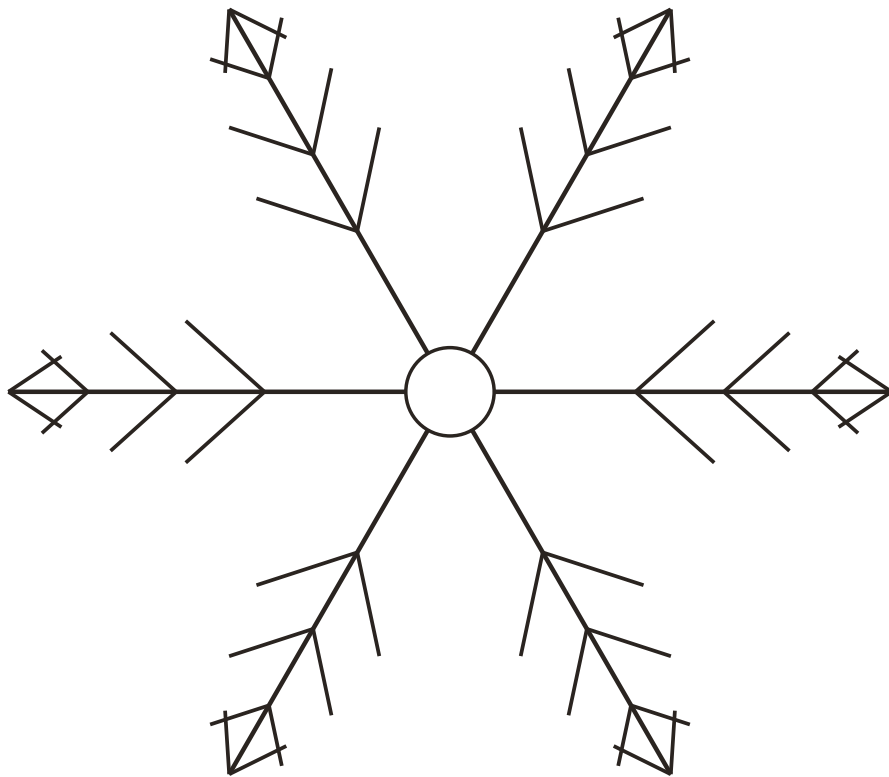

1. Print at 100% (actual size). Each design fills a printable panel.
2. Transfer onto wood: tape graphite/transfer paper under the print and trace the lines, or tape the print to a light-coloured blank and burn straight over it.
3. Burn the outline first, then add your own shading or fill.
4. Great on slices, coasters, ornaments and plaques.

*All patterns are original to Fire Needle — free to print and burn for personal projects.*

## 2 · Snowflake · Classic

Six-fold winter snowflake. Perfect on a round ornament or slice.

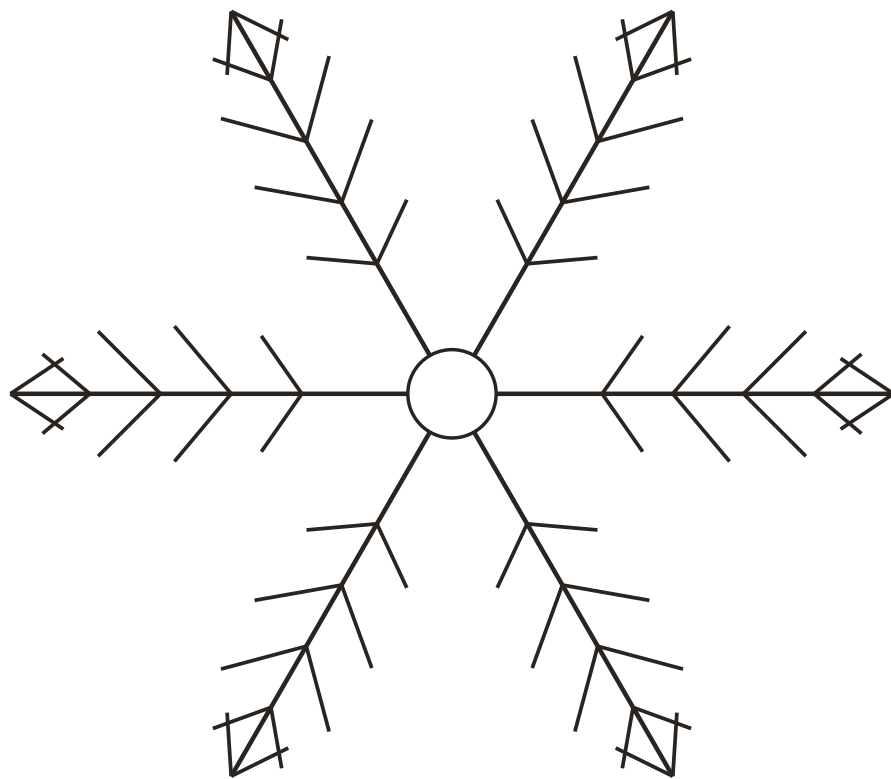

---

### 3 · Snowflake · Feathered

Six-fold winter snowflake. Perfect on a round ornament or slice.

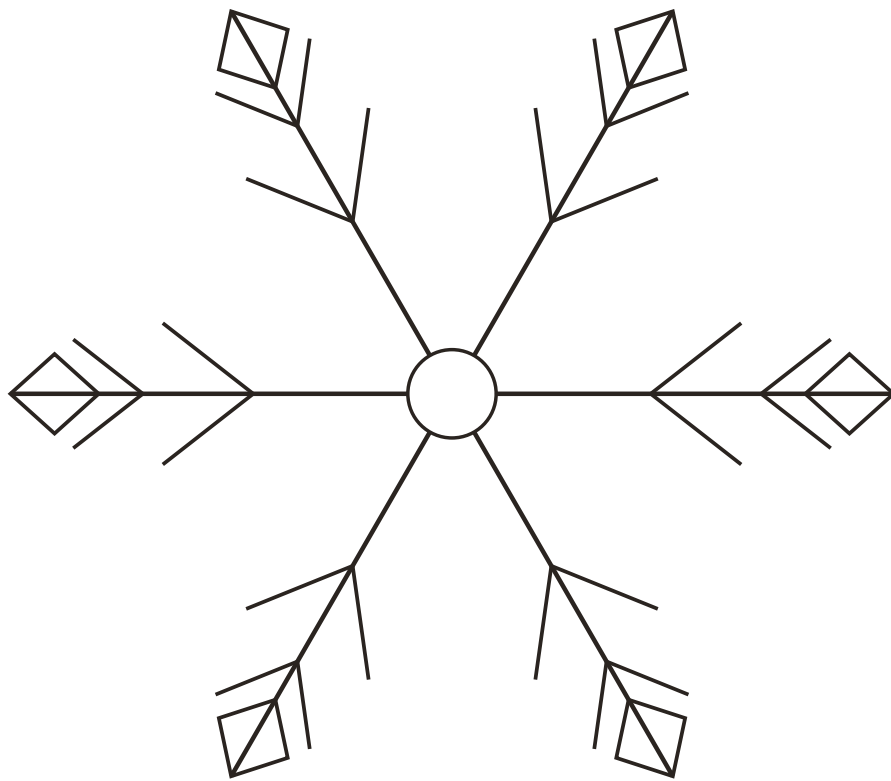

---

## 4 · Snowflake · Diamond Tip

Six-fold winter snowflake. Perfect on a round ornament or slice.

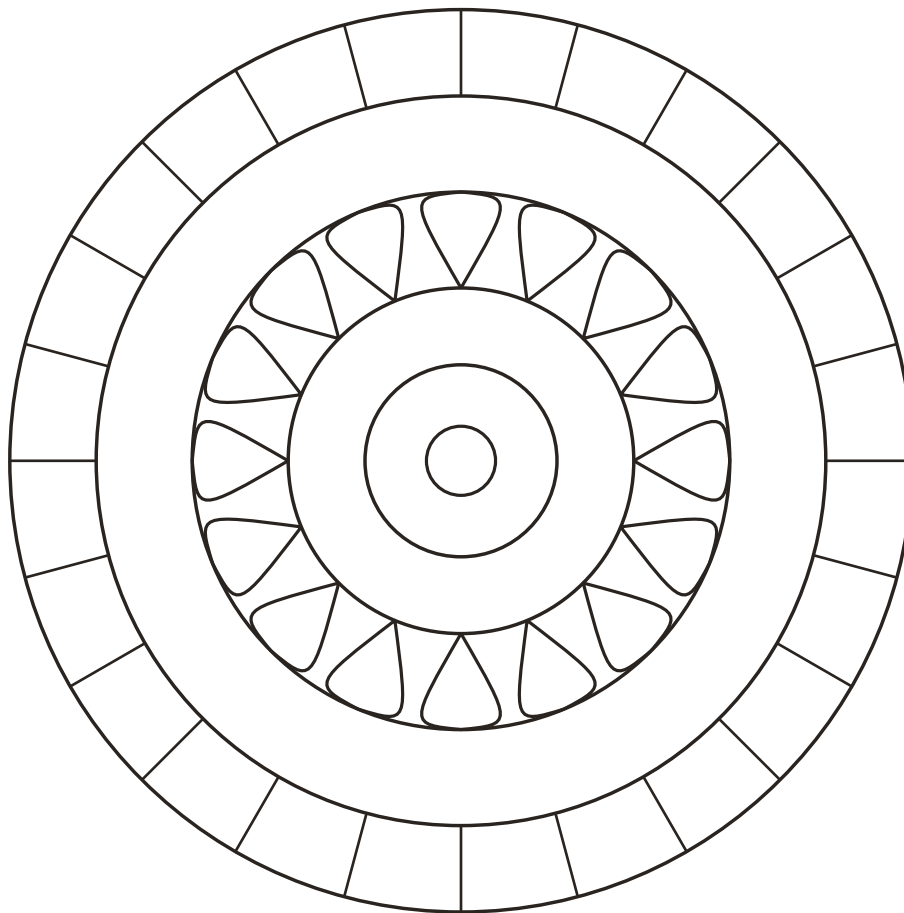

---

## 5 · Geometric Mandala

A layered ring pattern — burn the rings, then fill the petals.

---

## 6 · Star Ornament

An 8-point star with inner geometry. Great for a hanging ornament.
